## Hoops FX/ NBA GameTime/ Collegiate Hoops

“The NBA Gametime by ICE has really helped old locations come to life. Our bars and bowling alleys have seen a substantial increase in revenue thanks to the NBA Gametimes. We are looking for more locations to add them to.”

Jordan Barberio  
Barberio Music Company

“The NBA Game Time is a great piece to offer several of my sports bars, sports complexes and game rooms as it is an interactive piece that can't be played from a cell phone. One of the greatest attributes of the piece is the smaller size. It seems to fit better in some of our smaller settings such as bars/restaurants where the NBA Hoops didn't fit. We also love the moving baskets. The coin drop has exceeded my expectations and I am looking forward to the fall season. We currently have four machines and have two more on the way.”

Thank you,  
CJ Piccarreto  
CAP Amusement

“We are extremely satisfied with NBA Game Time, not only in its tremendous earnings but in its maintenance free design, ICE Games has produced a real winner here, and knowing that this is an ICE Games product means it's not only built well, but will bring us years and years of reliable play. After almost 10 years of having our FEC struggle with six other basketball games from various manufacturers, including having our last basketball game be down for 6 weeks during last summer's peak season as we waited on parts to be shipped from overseas, we were super excited to see the release of NBA Game Time at IAAPA 2016, it truly is the answer to arcade Basketball for any size game room. Purchasing NBA GameTime was an absolute no brainer for us, knowing that it's made in the USA, by a company which stands behind its products, its priced right and it beats the competition in reliability basket after basket. We would recommend ICE's NBA GameTime to any street operator or FEC owner big or small!!!”

Kind Regards,
