“We decided to try World Football pro at our place thinking it would be a filler piece. After its first week it out performed all of our carnival games (all 2 players) and did about the same as Axe master and Connect 4 Hoops. This is a one player game and it is competing and beating most comparable 2 player games.”

Jeff England at NEB's Fun World in Oshawa, Canada

“We are very happy with the World Football Pro and it ranks in the top 5 consistently in the 2 locations that have the machine. Soccer is on an upswing and this is a great way to capitalize on that.”

Ken Taylor at Jenkinson's Boardwalk in Point Pleasant, NJ

“World Football Pro from ICE is our Number 1 highest earning game, attracting players of all ages and genres. It's a must have game for all out of home entertainment locations.”

Matthew Deith at FunBox Entertainment UK Ltd & GamerGreen in Wandsworth, London

“ICE Games has kicked it in-the-box with World Football Pro!! This addition to our game room presents spectacularly, it's easy to see why it is a top 10 earner for us, has amazing customer replay and a full cashbox!! If the goal of any operator is to have the best game room offerings for their guests then this piece should 100% be on the buy list!!”

WORLD TESTIMONIAL ON FOOTBALL PRO™

“The WORLD FOOTBALL PRO, branded “ICE GAME” finally arrived at Circus Park branch, on June 15, 2023, it has proven to be a very visually attractive and fun machine, it has caught the attention of kids and adults, we can see this in the number of games sold in the short term since its premiere in this branch, leaving it in the top 10 of the machine sales.

It has a large number of plays and very good sales.

Since the beginning the game has 7,576 plays.

The game challenge is to try to score as many goals in 90 seconds, don't forget to press the button quickly to get as many balls as you can, each goal you hit will be worth 3 tickets, if you score 20 goals you will be in first place and you will win the bonus of 100 tickets, this makes it exciting and fun, break your own records and beat your rivals.

It is worth mentioning that since the machine was released to date, it has not had any mechanical failure or been out of service on any occasion, it has only had normal wear and tear on balls due to the greater demand for games collected, which have been renewed according to they have been needed.

In short, this great machine has the highest technology, has been widely accepted by our customers and has met their experiences, expectations and satisfaction when playing our “WORLD FOOTBALL PRO””
